# PROGRAMME BUILDERS FOR PSHE EDUCATION

KEY STAGES 1-2

# PSHE Association

## 2. THEMATIC MODEL

The national body for Personal,
Social, Health and Economic
(PSHE) education

Welcome to our PSHE education Programme Builders for key stage 1 to 4, designed to accompany the 2020 edition of the Programme of Study for PSHE education.

The Programme of Study sets out learning opportunities for each key stage, in three core themes: Health and Wellbeing, Relationships, and Living in the Wider World. The Programme Builders are designed to support the next step in planning your school's curriculum. The Programme Builders provide five different model programmes (two for the primary phase, two for secondary and one for middle/prep schools), each one comprising:

- a long term plan for the year across all year groups
- separate grids for each year group, setting out learning objectives for each half-term
- links to resources (both PSHE Association resources and resources carrying the Association's Quality Mark\*) that support each module. We will add new quality assured resources to the Programme Builders as they are published.

We have provided this range of models, in recognition that no two schools organise PSHE education in exactly the same way and no two PSHE leads will face exactly the same opportunities or challenges in designing their schemes of work. Schools should also tailor their PSHE education curriculum to the needs of their pupils, so are free to use and adapt the Programme Builder that best suits their school's needs.

Whilst each Programme Builder illustrates a different way of organising a PSHE curriculum, they all follow the same best practice principles. They build in developmental progression by revisiting themes year on year, building on and extending prior learning.

# COVERING THE STATUTORY CONTENT (Q)

Although the Programme Builders organise content under different headings from those used in the content grids of the Department for Education's statutory guidance on Relationships Education, RSE and Health education, each Programme Builder covers all of the statutory requirements for their phase, within a comprehensive PSHE education programme. And although each takes a slightly different approach, they each cover all of the Programme of Study learning opportunities for their phase as well.

<sup>\*</sup> Not all Quality Assured resources are free to access. A "£" symbol is used to symbolise those for which there is a charge.

#### **USING THE PROGRAMME BUILDERS**

Each Programme Builder begins with an overview of suggested content for each year group, for each half term. This is followed by more detailed grids for each year group, setting out broad learning objectives for each half term block and a list of regularly-updated links to relevant PSHE Association lessons and other resources that have gained our Quality Mark.

Before embarking on the development of your school's PSHE education provision, consider the needs of your pupils, the aims and ethos of the school, the local community and local environment in which the school is situated. This will help you to clarify your curriculum 'intent', and to ensure best practice curriculum design, tailored to your pupils' needs and your school's circumstances.

Local data (for example, from Public Health England's child and maternal health (CHIMAT) data sets and your local authority's joint strategic needs assessment (JSNA)), together with your knowledge of your pupils' needs, will help you to tailor your chosen Programme Builder to your specific needs if necessary. You might perhaps need to spend more time on a particular topic area, or bring content forward if your pupils need it sooner.

### ABOUT THIS PROGRAMME BUILDER

## 2. THEMATIC MODEL KS1-2

This programme builder takes a thematic approach to primary PSHE education, covering all three core themes of the Programme of Study (Health and Wellbeing; Relationships; and Living in the Wider World) over the school year, with three topics per half term. This approach allows different year groups to work on similar themes at the same time, building a spiral programme year on year, whilst offering flexibility in terms of medium term planning. The colour-coded topic areas can be adapted to meet planning requirements, pupils' stage of development and needs and also to reflect the context of the school and local community.
